

Retesting

If you are not satisfied with your initial test results and course placements, you may retest.

There is a \$10.00 retest fee per retest session, payable in the Business Office prior to retesting which is required when attending your retest session.

BEFORE RETESTING

- Brush-up of your skills is expected prior to retesting
- Study guides are available online
- Retests are available on a walk-in basis during Accuplacer hours listed online

PLACEMENT TESTING

Assessment and placement is required for all students. The Accuplacer assesses skill levels in reading, English and mathematics. Although the placement tests do not determine admission to Anoka-Ramsey Community College, they do determine entry into some courses. Test results are used to determine the appropriate course placement to promote student success.

If you are transferring to ARCC from another college, be sure your transcript is carefully evaluated by the Office of Records and Registration and Advising to ensure that you do not retake equivalent courses.

Reading & English scores are valid for three years. Math scores are valid for two years.

Contact an advisor if you have questions regarding your placement scores by emailing: advising@anokaramsey.edu or by calling 763.433.1230.
