Program Information

The Associate of Science (AS) in Environmental Science degree program prepares individuals for the first two years of a bachelor's degree related to environmental science or environmental studies. For assistance in program planning, or to explore additional transfer options, students should schedule a time to meet with an academic advisor. This degree may transfer in part or in its entirety to baccalaureate institutions. Students should meet with a representative of the transfer institution when planning their program.

Program Goals

By completing this program, students will achieve the following learning goals:

1. Demonstrate comprehension of the ecosystem structure and function;
2. Explain the nature of biological communities;
3. Demonstrate application of critical thinking in classroom and in field studies;
4. Describe economically and ecologically important resources;
5. Evaluate and describe significant environmental dilemmas; and
6. Explain community and habitat dynamics.
