Associate of Science (AS) Degree

Program Requirements 27
 Program Electives 3
 General Education/MnTC 30
 Total Credits 60

Program Information

The Associate of Science (AS) in Community Health degree program will enable students to focus studies on health-related issues and interests. The program's interdisciplinary emphasis will address a variety of health topics and perspectives, and will allow students to begin to develop an understanding of personal, public, and community health issues. The program will provide the lower division coursework to form the basis for a four-year degree in public health, community health, health education, and related degree areas. For assistance in program planning, or to explore additional transfer options, students should schedule a time to meet with an academic advisor. This degree may transfer in part or in its entirety to baccalaureate institutions. Students should meet with a representative of the transfer institution when planning their program.

Program Goals

By completing this program, students will achieve the following learning goals:

1. Demonstrate the ability to gather and interpret evidence-based health and wellness information;
2. Understand and apply behavioral strategies to promote positive lifestyle choices;
3. Demonstrate knowledge and understanding of the physiological principles essential to health and wellness; and
4. Demonstrate proficiency in oral and written communication related to topics in health.
