

Associate of Arts in Liberal Arts & Sciences

Associate of Arts (AA) Degree

Program Information

The Associate of Arts (AA) in Liberal Arts and Sciences degree program is intended to constitute the first two years of a baccalaureate degree program. Transferability of courses from Anoka-Ramsey Community College (ARCC) to public higher education systems in Minnesota is enhanced by transfer agreements that are in place. Transfer standards and procedures adopted by all the public higher education systems in Minnesota insure students' transfer rights. Listings of available courses to satisfy the areas of the Minnesota Transfer Curriculum are available online and in the academic advising office. For assistance in program planning, or to explore additional transfer options, students should schedule a time to meet with an academic advisor. This degree may transfer in part or in its entirety to baccalaureate institutions. Students should meet with a representative of the transfer institution when planning their program.

Program Goals

By completing this program, students will achieve the following learning goals:

1. Develop writers and speakers who use the English language effectively and who read, write, speak, and listen critically;
2. Develop thinkers who are able to unify factual, creative, rational, and value-sensitive modes of thought;
3. Improve students' understanding of natural science principles and of the methods of scientific inquiry, i.e., the ways in which scientists investigate natural science phenomena;
4. Increase students' knowledge about mathematical and logical modes of thinking;
5. Increase students' knowledge of how historians and social and behavioral scientists discover, describe, and explain the behaviors and interactions among individuals, groups, institutions, events, and ideas;
6. Expand students' knowledge of the human condition and human cultures, especially in relation to behavior, ideas, and values expressed in works of human imagination and thought;
7. Increase students' understanding of individual and group differences (e.g. race, gender, class) and their knowledge of the traditions and values of various groups in the United States;
8. Increase students' understanding of the growing interdependence of nations and people and develop their ability to apply a comparative perspective to cross-cultural social, economic, and political experiences;
9. Develop students' capacity to identify, discuss, and reflect upon the ethical dimensions of political, social, and personal life and to understand the ways in which they can exercise responsible and productive citizenship;
10. Improve students' understanding of today's complex environmental challenges; and
11. Improve students' awareness and understanding of issues related to personal wellness.
